

MSU is currently under negotiations with an outside vendor who will be collecting the meningitis immunization documentation. Please see below for the categories of students who are required to have this vaccination.

*Due to the state requirement that immunization must occur 10 days before the spring semester begins, students must be vaccinated **prior to January 4, 2012.***

Proof should be provided immediately following immunization.

More information will be available soon on how to submit this proof.

21.610 Purpose

Pursuant to the Jamie Schanbaum and Nicolis Williams Act, this subchapter created the procedure by which a student of an entering student of an institution of higher education or private or independent institution of higher education will show evidence of being immunized against bacterial meningitis.

21.611 Authority

Texas Education Code, Section §51.9192: Subchapter Z, establishes the requirement for bacterial meningitis vaccination for certain students and identifies exceptions to that requirement. This subchapter applies only to entering students enrolling in public, private or independent institutions of higher education on or after January 1, 2012.

21.612 Definition

The following words or terms, when used in this subchapter, shall have the following meanings, unless the context clearly indicates otherwise:

1. Entering student includes:
 - A) New student—a first-time student of a Texas institution of higher education or private or independent institution of higher education, including a student who transfers to the institution from another institution.
 - B) A student who previously attended an institution of higher education or private or independent institution of higher education before January 1, 2012, and who is enrolling in the same or another institution of higher education or private or independent institution of higher education following a break in enrollment of at least one fall or spring semester.
2. Evidence of Vaccination—Acceptable evidence of vaccination or receiving a booster dose includes:
 - A) The signature of stamp of a physician or his/her designee, or public health personnel on a form which shows the month, day, and year the vaccination dose or booster was administered; or
 - B) An official immunization record generated from a state or local health authority; or
 - C) An official record received from school officials, including a record from another state.
3. Health practitioner—Any person authorized by law to administer a vaccination.
4. Institution of Higher Education—Any public, technical institute, public junior college, public senior college or university, medical or dental unit or other agency of higher education as defined in Texas Education Code, §61.003(8).
5. Private or independent institution of higher education—Includes only a private or independent college or university as defined in Texas Education Code §61.003(15).

21.613 Immunization requirement

- A) An entering student who has been admitted to an institution of higher education or private or independent institution of higher education, must show evidence of receipt of an initial bacterial meningitis vaccination dose or booster during the five-year period preceding and at least 10 days prior to the first day of the first semester in which the student initially enrolls at an institution, or following a break in enrollment of at least one fall or spring semester at the same or another institution.
- B) Each institution of higher education or private or independent institution of higher education must designate a department or unit to receive from the student evidence of receipt of an initial bacterial meningitis vaccination dose or booster during the five-year period preceding and at least 10 days prior to the first day of the first semester in which the student initially enrolls at an institution, or following a break in enrollment of at least one fall or spring semester at the same or another institution.
- C) Evidence of the student having received the vaccination from an appropriate health practitioner must be received by the designated department or unit at the institution of higher education or private or independent institution of higher education. This information shall be maintained in accordance with Family Education Rights and Privacy Act Regulations, and with Health Insurance Portability and Accountability Act.
- D) Each institution of higher education or private or independent institution of higher education must provide to a student, with the registration materials, that the institution provides to a student before the student's initial enrollment in the institution, the following:
 - (1) written or electronic notice of the right of the student or of a parent or guardian of a student, to claim an exemption from the vaccination requirement, as specified in Section 21.614; and
 - (2) written or electronic notice of the importance of consulting a physician about the need for the immunization against bacterial meningitis to prevent the disease.
- E) Under justifiable circumstances, an administrative official of the designated department or unit of an institution of higher education, or private or independent institution of higher education, may grant extensions to individual students to extend the compliance dated to no more than 10 days after the first day of the semester of other term in which the student initially enrolls.

21.614 Exceptions

- A) A student is not required to submit evidence of receiving the vaccination against bacterial meningitis or evidence of receiving a booster dose if the student is 30 years of age or older or if the student is enrolled only in online or other distance education courses.
- B) A student, or a parent or guardian of a student, is not required to submit evidence of receiving the vaccination against bacterial meningitis if the student, or a parent or guardian of a student, submits to the institution:
 - (1) An affidavit or a certificate signed by a physician who is duly registered and licensed to practice medication in the United States, in which it is stated that, in the physician's opinion, the vaccination required would be injurious to the health and well-being of the student: or
 - (2) An affidavit or a certificate signed by the student stating that the student declines the vaccination for bacterial meningitis for reasons of conscience, including a religious belief. A conscientious exemption form from the Texas Department of State Health Services must be used.
- C) The exception noted in subsection (a) (2) of this section does not apply during a disaster or public health emergency, terrorist attack, hostile military or paramilitary action, or extraordinary law enforcement emergency declared by an appropriate official or authority from the Texas Department of State Health Services and is in effect for the location of the institution the student attends.
